Glass Coasters - Printed

Standard size is 90mm x90mm, premium quality edgework
other sizes available on request

Glass coaster is printed on the underside with 2 pot epoxy ink,
which is then heat cured. rubber feet are then applied.
coasters can be wiped clean- but not submergible in water.

We can print in a variety of colours and can match to
particular PMS or Patone inks . However we strongly suggest
frost as it is more subtle and more in keeping with the
feel and look of glass.

Pricing - artwork setup charge \$55 - resetup for subsequent jobs \$35
our inhouse design team can help with suggestions and mockups
